

ShopNow

User Guide

Welcome to ShopNow

Introduction

Welcome to the Shop Now User Guide. This guide is designed to help you navigate and utilize the features of our retail management system efficiently.

Login/Sign Up:

- Login: If you already have an account, simply enter your user ID and password to access the home page. Remember, three consecutive incorrect attempts will result in a 59-second lockout for security purposes.
- Sign Up: New to ShopNow? No problem! Sign up by providing your name, email, password, contact number, and address. Once signed up, you'll be redirected to the login page to access the main features.

We have created this application for users and administrators. If you are an administrator, you must log in to the page.

User Access:

- We have provided the feature to add products to the cart. The user can manage the quantity as needed.
- There is a search bar on the main screen; you can find the product as per your requirements.
- You can check the order summary by clicking the cart button at the top right corner.
- At the cart corner, there is an option whether to remove a product or place an order.

For users, we have created an essential online application to order products. Well, there are more features to add, but all the basic things are covered. We also request that you respond to our application so we can improve.

Shopping & Cart:

- Add to Cart: Found something you like? Simply tap on the item to view details and add it to your cart for future purchase.
- Cart: Access your cart to review items, adjust quantities, or proceed to checkout.
- Ordering: Once satisfied with your selection, proceed to the checkout to finalize your order and choose your preferred payment method.

Admin Access

- Upon logging in, users have access to browse and shop for products. However, certain sections are exclusively managed by the admin:
- Admin: Exclusive access for administrators to manage app settings and functionalities, including user management, vendor management, inventory monitoring, product management, and delivery partner management.

Admin Functions:

- User Management: View, update, or delete user details as necessary.
- Vendor Management: Explore vendor details and manage vendors.
- Inventory Management: Monitor inventory levels and update quantities to ensure accurate stock management.
- Product Management: View, update, or delete product details to keep the catalog up to date.
- Delivery Partner Management: Access delivery partner details and manage deliveries efficiently.

Enjoy Shopping

Now that you're familiar with ShopNow, it's time to indulge in a seamless shopping experience.

Happy shopping :)
